Peer Review: an Insider‘s View

Dr. Matthias Seaman, Managing Editor, Inter-Research, Oldendorf

4 May 2015 | 11:00 hrs

Getting through the peer review successfully requires an understanding of the process, including what happens after submission. How to react when a manuscript is rejected, how to counter reviewer‘s objections when you don’t agree, corresponding with the editor etc.?

In this seminar, a senior editor of scientific journals gives background – and insider! – information on what happens behind the scenes during manuscript review. There will be time for questions and discussion.

Matthias Seaman is Managing Editor-in-Chief of Inter Research that publishes, among other journals, Marine Ecology Progress Series, Climate Research and Aquatic Microbial Ecology.

THIS IS AN OPEN EVENT - NO REGISTRATION IS REQUIRED

Venue: Small Conference Room, GEOMAR West Shore

Child care can be provided if we have two weeks notice in advance.
