

ISOS Course

Endnote / Mendeley - Tools for Literature Management

Dr. Inken Kruse, GEOMAR; Dr. Nina Bergmann, ISOS

10 June 2013 | 9h - 17h | Venue: Room 205, Leibnizstr. 1

Preparatory Meeting: 27 May | 13 h | GEOMAR West | Large Conference Room

Successfully publishing papers requires a good structured overview of your huge piles of literature - Reference Management Software can help!

Are you still storing your PDFs in folders and subfolders to organize them by subjects? Are you still manually citing in Word or formatting reference lists in your manuscripts? You can't remember where you read a certain statement?

Get to know how to effectively use Endnote and Mendeley including timesaving features like citing a paper with just a clic or automatic formatting of your reference list for a specific journal.

Tentative Topics:

| Where and how to obtain References for download to Endnote/Mendeley

| What can you do with Reference Software?

Features and Limitations of EndNote and Mendeley

| Structure and find information in your literature

| How to transfer information from Endnote/Mendeley to your manuscript

| How to format your references

ISOS PhDs have priority in our courses.

Childcare can be provided if we have notice two weeks in advance.
