

## ISOS Course

# Image Optimisation with Adobe Photoshop

Sebastian H. Schroeder

Freelance Photographer and Lecturer at Photo + Medienforum Kiel

**28 - 29 October | 09:00 - 17:00 h**

Imagery is able to support your scientific studies and research a great deal. Adobe Photoshop gives you the ability to adjust, enhance and integrate these images to significantly improve your research presentation.

This workshop introduces the most important Photoshop features and techniques. Bringing own images is recommended.

Course contents:

- | Understanding Photoshop workspaces
- | Retouching essentials
- | Using layers
- | Non-destructive workflow
- | Creating selections
- | Cropping and image composition
- | Color correction
- | File formats and export for layouts
- | Good scientific practice: Dangers of image manipulation

**Venue:** Leibnizstraße 1

*ISOS PhDs have priority in our courses.*

*Child care can be provided if we have two weeks notice in advance.*
