

ISOS seminar

“From Doctorate to ...”

Prof. Dr. Malte Prieß, Wirtschaftsakademie Schleswig-Holstein GmbH

30 November 2017 | 15:30h

How straight-lined does your career path need to be? Do you need to stay in one sector and what is the experience of people who didn't do this?

Meet Malte, now professor for business informatics at the Wirtschaftsakademie Schleswig-Holstein GmbH, at our next seminar. Before becoming a professor, Malte worked as a consultant, teacher and scientist. Discuss with him his experiences, the different chapters of his professional life and how he became a professor.

The “From Doctorate to...” Seminar Series introduces success stories from in and outside academia. Professionals from various fields discuss challenges, benefits and motivations for different career paths in an open and informal atmosphere.

“From Doctorate to...” is open to everybody interested and is most relevant for doctoral and postdoctoral researchers.

Venue:

small conference room, GEOMAR West
(Düsternbrooker Weg 20)
