

# PANEL DISCUSSION

## Scientist, Citizen, Society: Social Responsibility in a Changing World

**Thursday 19 February 2015 | 16:00 – 18:00 h**

This event is open to all interested participants!

Join us for a panel discussion about the role and responsibilities of scientists in public policy and debate! In this day and age, society faces a number of pressing issues that require urgent policy decisions. Is there a clash between scientific responsibilities and social responsibilities? Is it a professional or private responsibility to take a stand in policy debates? Or will advocacy erode the credibility of scientists and their discipline? How is this issue debated among peers and in the public?

### Meet and hear panelists:

**Prof. Dr. Martin Visbeck**, GEOMAR and CAU

Physical oceanographer and speaker of the Cluster of Excellence “The Future Ocean”

**Prof. Dr. Florian Dünckmann**, CAU

Cultural geographer and lecturer at the Kiel School of Sustainability

**Dr. Martina Baum**, CAU

Technical biologist and city council woman for the green party in Kiel

**Tim Schröder**

Freelance science journalist, contributor to Mare and the World Ocean Review

Moderated by **Christina Bonanati**

Earth System Knowledge Platform (ESKP), GEOMAR, ISOS PhD candidate

**Venue:** GEOMAR westshore building, Düsternbrooker Weg 20, large conference room
